Thank you for selecting the Zircon from the Crem Expobar range of high quality traditional espresso machines. To ensure that your new machine will give you years of trouble free service, then please take the time to ensure that all of the requirements within this information pack are followed and that the pre-installation check list is completed and returned.

We have combined our genuine experience of building first-class espresso machines with creative solutions and the latest innovative technology. Therefore, you can be sure that all Zircon machines deliver what they promise. That is, a perfectly brewed espresso to your customers every day, year after year.

Built-in volumetric motor pump, equipped with two retention valves and solid particles filter. Copper boiler with heat exchanger per group and pressure relief valve. Boiler drain tap (except Compact/Mini models). Group head with direct pre-infusion chamber. One steam arm and one hot water tap in Compact/Mini and 2 groups models. Two steam arms and one hot water tap in 3 & 4 groups and Display models.
