Change information:

1st step

- Creation of kits to have the 3 single parts of the wooden cover in the same kit.
- Single parts will be no longer sold separately as spare parts, only kit mentioned (page1). This is due to slight colour tone differences on the wood parts between batches, so colour mismatches are avoided serving parts as a kit.

2nd step

- Treatment improved.
- New treatment applies to all parts.
- Cleaning & Care instructions for wood parts will be included with the kit.

Following parts have been updated:
